

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/aoj-20-73	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Drilling the PCL tibial tunnel in the posterior half of the fovea and utilizing a POL tunnel starting from the medial edge of Gerdy's tubercle and exiting anteriorly just lateral to the tibial tubercle is the most effective reconstruction technique for minimizing the risk of tunnel intersection.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Surgeons of sports medicine
8	For what type of analysis or purpose?	For analysis to evaluate the safety of the patients combined POL with PCL injuries.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: huangyaonj@163.com.
10	Any other restrictions?	No
